

/// ORGANISING COMMITTEE COMMUNIQUE ILC France 2020 ///

Postponement of ILC France 2020

Considering the evolution of the situation as well as persisting uncertainties, and a state of health emergency announced for several more months, we have decided to shoulder our responsibilities and announce our decision today instead of waiting for 31 May. In view of the closure of many borders in the Schengen Area, as well as travel bans and restrictions in or from certain countries, **we have decided to postpone the International Limousin Congress which was to be held in France from 17 to 26 September 2020.**

We are aware of the implications of such a decision, and assure you that it was taken in concertation with all parties involved. The organising committee remains fully committed to transferring the ILC France 2020 to 2021, and is at your disposal to answer all questions.

The International Limousin Congress will take place in September 2021, based on the programme imagined for 2020, and will include in its schedule the Concours National Limousin and trips to Bordeaux, Limoges and Paris.

Regarding the postponement, in order to favour those already registered and allow them to easily maintain their participation, registration fees (short programme / long programme) collected by ILC France 2020 will be held, and will count as registration for ILC France 2021. **We will inform each participant as soon as the release of the event's program 2021.**

- For any question, **please contact us at** contact@ilcfrance2020.com or +33 (0) 5 55 06 46 05.

The platform is temporarily closed.

We look forward to welcoming you in September 2021 for an International Limousin Congress that we have all been expecting... and deserve!
